EDUCATION

University of Caloocan City

2022 - 2026

- **Bachelor of Science** in Entertainment and Multimedia Computing (BSEMC)
- **Latin Honor – Cum Laude**
- **General Weighted Average (GWA) – 1.26**

TECHNICAL SKILLS

Languages – C#, Java, JavaScript, HTML5, CSS3

Frameworks/Libraries – Netcode for GameObjects, Game Development, Scene & Level Design, Backend Logic, Frontend Logic, Web Programming, Project Management, Agile/Scrum, Sprint Planning, Task Delegation, Team Coordination, 3D Modeling, Basic Rigging, Animation Pipelines, 2D Art & Design, Concept Art, UI Design, Sprite Creation.

Tools & Platforms – Unity Engine, Git, Autodesk Maya, Adobe Photoshop, Adobe Illustrator, Aseprite, LibreSprite, IbisPaint X.

WORK EXPERIENCE

Natugen Software Development Service | **Game Artist Intern**

July - August, 2025

- **Asset Production & Styling** – Designed and delivered 20+ high-quality character illustrations for digital card games, maintaining strict visual and thematic consistency with the project's established art direction.
- **Pipeline Integration** – Collaborated closely with the technical and development teams to optimize art assets, ensuring all character designs met precise technical constraints and formatting requirements for seamless game engine integration.
- **Agile Collaboration** – Actively participated in creative production sprints, contributing actionable visual concepts and design feedback that helped shape the final visual identity of active game projects.

Commission on Audit (COA) | **Administrative Intern**

May - July, 2025

- **Data Management & Security:** Spearheaded the categorization, digitization, and archiving of confidential government audit documents, maintaining 100% data integrity and strict confidentiality standards.
- **Workflow Optimization:** Executed high-volume data entry and administrative tasks, implementing meticulous document-tracking methods that streamlined the department's clerical workflows and reduced processing bottlenecks.
- **Interdepartmental Coordination:** Managed professional communication and document routing across multiple departments, ensuring efficient, error-free operational tracking.
- **Reporting & Support:** Assisted senior audit executives in compiling data and preparing official compliance reports, demonstrating strong attention to clerical detail under tight deadlines.

RELEVANT PROJECTS

Pabili! Sari-sari Store Simulator | **Technical Artist & Programmer**

2026

- **Overview** – Developed a 2D management simulator focusing on the cultural nuances of a Filipino sari-sari store, incorporating custom debt mechanics and customer service loops.
- **Programming & Optimization** – Programmed 100% of the interactive UI screens and core C# economic logic, while optimizing scripts to ensure smooth cross-platform performance on mobile and PC.
- **Art & Animation** – Visualized 80% of the core concepts, designed all scene layouts, and produced character sprites. Utilized Unity's built-in rigging animation features for character movements and manually programmed dynamic UI animations.

Pigment Wars | **Project Manager, Technical Artist, & Programmer**

2025

- **Overview** – Engineered a high-paced, 3D competitive multiplayer game featuring real-time tile-coloring and intense countdown mechanics.
- **Leadership & Code** – Led a cross-functional team through the full game development lifecycle, designed all project scenes, and co-programmed core functions alongside multiplayer synchronization using Unity Netcode.
- **3D Art & Animation** – Modeled 60% of the 3D assets in the game and created fluid animations for player movements and power-up idle states.
